

FRIENDS FOREVER

Chorus:

Friends, friends forever,
Forever we are friends.
I got your back and you got mine
That will never end.
Friends, friends forever,
Forever we are friends.
So come along and join our song,
'Cause everything better with friends

Verse:

When we get together if for work or play.
Everything is better every single day.
I know I can count on you that is plain to see,
And I hope you realize you can count on me.

Chorus**Rap:**

Travel all around the world and everywhere you land,
You can make a friend or two on that you can depend.
We can never have too many on that you can depend.
Everyday is better when you bring along a friend.

Chorus**Tag**

So come along and join our song,
'Cause everything better with friends
